CONTRIBUTING WITH PEOPLE

(Silvana Koenig)

Personally, cross-cultural relation has been one of my passions, and my proficiency in this regard has been recognized in Australia and Canada where I have had the opportunity to lead and guide groups of women living in mixed cultural and religious beliefs. I worked and lived with the Chinese Church of Montreal in Canada from 2014 to 2017 and contributed to the restoration of families in similar situations. For about three years, I was a regular participant in the leadership training group called 'The Hud Group Canada' which focused on Holistic Development in Emerging Leaders.

Additionally, I completed Biblical formation called 'In the Image of Christ' by the Ministry of Francis Frangipane in 2016. Similarly, I attended and taught courses in areas of Inner healing and prophecy. The other courses that I have attended include Soul Inner Healing, Healing Room, The Prophetic Ministry by Bethel Church Redding in California.

Having gained this vast experience over these past long many years, it is now appropriate to share and spread it across to the rest of the world in a new format in my new Channel with a new brand as service.

*According to Frederick Hudson (1999)
"Coaching is the art of orienting
another person, other people or human
systems towards a rewarding future".*

The decision to choose the country is 100% up to the client!

"I Silvana Koenig and my team - some, who have immigrated themselves, are responsible for all the training. We use several techniques, among them: values discovery, DISC, self-esteem awareness, breaking with self-sabotage and limiting beliefs.

We have prepared numerous exercises, questions, questionnaires, and videos. We will provide important information about visas and can even refer my immigration partners at the appropriate time".

LIFE COACH PROGRAM

Divided into 8 independent modules, the Life Coach Program is extremely enlightening of the most diverse areas of life.

The Life Coach Program

The Life Coach Program was created so that the client can understand the areas of his/her life that he/she would like to improve.

The objective is to help the client to act to overcome challenges and barriers he/she is facing. Some clients (Coachees) know very well what their goals are and what they need to improve to reach their success. They also have it clear why they have looked for a life coach, but others, clients (Coachees), are less clear about their situation, in both cases we will work with diverse techniques and tools to help them through their journeys.
